Sakyath Bonagiri

bonagirisakyath@gmail.com +91 7396417317 Hyderabad, India

Motivated graduate with strong foundational knowledge in Java and object-oriented programming. Well-trained with good understanding of SQL, and basic frontend technologies. Seeking an opportunity to contribute to an organization while continuing to advance my technical skills and grow professionally.

Internships

Prosper Overseas (Full Stack Developer) July 2025 – Jan 2026

- Built and maintained full-stack web applications using .NET MVC 5 on the backend and HTML, CSS, JavaScript, and Bootstrap on the frontend.
- Integrated dynamic UI with REST APIs and database operations, ensuring smooth and efficient data flow across the application.
- Debugged and optimized both frontend and backend modules, boosting overall performance and user experience.
- Currently leveling up with React.js to create modern, reusable components and enhance full-stack development capabilities.

AICTE (Internship) Aug 2024 – Jan 2025

- Participated in AICTE Internship – *Transformative Learning with TechSaksham*.
- Collaborated on building a real-world web application to manage housing society operations.
- Contributed to backend development tasks like handling user logins, managing resident records, and automating maintenance workflows.
- Applied Java programming skills to implement core business logic and ensure application performance.
- Gained hands-on experience in frontend design, API integration, and deploying full-stack applications.

PROJECTS

Housing Society Management System Aug 2024 – Jan 2025

- Developed a Housing Society Management System for efficient management of residents, payments, and maintenance requests.
- Implemented backend logic using Spring Boot for user authentication, payment processing, and data management.
- Designed a responsive frontend using HTML, CSS, and JavaScript for easy navigation and communication.
- Integrated RESTful APIs for frontend-backend communication and implemented role-based access control.
- Deployed the application on a Azure cloud, ensuring cross-browser compatibility.

Technologies: Java, Spring Boot, HTML, CSS, JavaScript, Azure

Web Portal for College Jan 2025 – May 2025

- Designed and developed a responsive website for college admissions, events, and announcements using HTML, CSS, and JavaScript.
- Built a modern user interface to enhance visibility of college programs, facilities, and admission procedures.
- Integrated existing backend APIs to display dynamic data such as course offerings, application status, and notifications.
- Implemented a fee payment interface allowing students to securely access and complete fee transactions online.
- Ensured mobile responsiveness and smooth navigation, making the website accessible across devices.

Technologies: HTML, CSS, JavaScript, Java, Azure

EDUCATION

Bachelor of Technology (B.Tech) - Electronics and Communication Engineering

St. Martin's Engineering College, Hyderabad 2025

CGPA: 6.9

Intermediate – MPC

Aditya Junior College 2021

Percentage: 62%

Secondary School Certificate

Telangana Model School 2019

CGPA: 9.0

CERITIFICATES

AICTE Virtual Internship - TechSaksham

Software Engineering Virtual Experience – JPMorgan Chase

Java Full Stack – Udemy

SKILLS

Languages: Java, JavaScript, C,

Web Technologies: HTML, CSS, Bootstrap, React.js

Testing Tools: Selenium, Cucumber

Backend Framework: .NET MVC5, Spring Boot

Database: MySQL, SQL Server

Tools and Frameworks: Postman, Git

Concepts: RESTful APIs, MVC Architecture, OOP
